

Access Manual

Non-motorized access barrier

- Opening width up to 20 Ft
- Manually operated barrier that matches the MicroDrive line
- Available in 4 colors

For manual access control

Access Manual-H is the barrier of choice, should you wish to have a manual barrier to match your MHTM™ MicroDrive automatic barriers. Available in barrier arm lengths up to 20 ft and in 4 standard colors. MHTM™ MicroDrive barriers impress with a sophisticated and enduring design. The modularly designed housing made of extruded aluminum profiles and a base frame made of stainless steel (both powder-coated) offers the best protection against corrosion. The Microboom is the straight barrier arm for the MHTM™ MicroDrive and comes equipped with a foam edge.
